

The Taste Test

Where were you during the Great Cola Wars of the 1980's? The Taste Test takes us back to 1985 as the biggest cola company in the world is about to abandon the tried & true and shock America with the introduction of a brand new product. But, this is not a play about selling sugar water it intricately weaves contrasting themes of loyalty to your friends and colleagues versus self interest: honesty and trust versus hidden agendas and secrets; and perception versus reality. Ultimately, all three characters struggle with the biggest question -- "What would it take for your best friend to betray you? ... or vice versa?"

THE TASTE TEST Cast/Crew
